To Whom It May Concern:

Re: Meaghan Kuleza

Meaghan has worked part-time for Florida Mesa Preschool and Child Care Center as a preschool classroom assistant since August 2002. As a full-time student at Fort Lewis Mesa College, she was only available for approximately 16 hours a week at our center. Meaghan was an excellent staff member. She was liked by other staff members and worked well with her co-workers. Meaghan also substituted occasionally when other staff members were out for the day. Meaghan was competent and confident in working in this role.

Meaghan worked with approximately 18 preschool children. Her interaction with the children was always positive and always developmentally appropriate. Often Meaghan was responsible for the end of day activities in the preschool classroom. She was quite capable at engaging the children in activities until their parents arrived. Meaghan was well liked and trusted by the parents and at times Meaghan provided child-care for children when she wasn't working at the center.

Meaghan will be an excellent teacher. She is dependable, creative, involved, supportive, knowledgeable and willing to help wherever she is needed. I enthusiastically provide this letter of recommendation. For further clarification, please do not hesitate to contact me.

Sincerely,

Kathy Wales
Director
